

## State-Funded Alternative Water Supply Projects in the NFWMD

Project Name	Project Description	FY 2019-20	FY 2020-21	Match Funding	Total Funding
Okaloosa-Eglin AFB-Niceville Reclaimed Water Project	Design and construction of 11 miles of reuse main connecting Eglin AFB and the City of Niceville to Okaloosa County's Arbennie Pritchett Water Reclamation Facility.	\$2,500,000		\$8,000,000	\$10,500,000
South Santa Rosa Reuse Initiative	Phase I of a multi-phase project for construction of over four miles of reclaimed water transmission main, RIB discharge site, and treatment plant upgrades.		\$2,600,000	\$8,000,000	\$10,600,000
Panama City Beach Parkway Reuse	Design and construction of approximately 1.4 miles of reclaimed water transmission line; making reclaimed water available to more than 200 existing and over 1,500 future connections, as well as a new sports complex.		\$494,900	\$494,900	\$989,800
Gadsden WWTP Effluent Meters	Installation of electronic meters integrated with the supervisory control and data acquisition (SCADA) system to allow continuous monitoring of wastewater constituents with instantaneous readings available on a digital readout and with the additional capability for remote monitoring.		\$44,385		
<b>Current AWS Projects Totals</b>		<b>\$2,500,000</b>	<b>\$3,139,285</b>	<b>\$16,494,900</b>	<b>\$22,089,800</b>
